

# HOW TO PLAY BLACKJACK

YOUR GUIDE TO PLAYING  
CASINO TABLE GAMES

PLAYERS **EDGE**

# PLAYING THE GAME

## HOW IT WORKS

Six - 52 card decks will be used for Blackjack games. All Blackjacks pay 3 to 2 on \$25+ tables, and 6 to 5 on \$15 tables. The dealer hits Soft 17 except in High Limit. Dealer stands on all 17s in High Limit. The objective of this game is for the player to beat the dealer's hand without going over 21. Card values are as followed: Aces are worth 1 or 11, face cards (Jack, Queen, or King) are worth 10, and all other cards are worth their face value. The game starts by making a bet on the blackjack hand, then the player and the dealer receives two cards. The player may draw additional cards while the dealer must draw until they have at least 17. The Player's intention must be indicated by a hand signal.

### Insurance Bet

Only if Dealer shows a up card of an Ace

- Option to bet up to half the original wager. Winning insurance wager pays 2:1

### Double Down Bet

- Option to bet up to 100% of the original wager and then the player will only receive one (1) addition card.

### Splitting

- Pairs may be split, making two hands, up to three (3) times; Aces may only be split once.

TriLux and TriLux Super 3 are both optional bonus bets for Blackjack. TriLux Super 3 bonus bet CANNOT be wagered unless a TriLux bet had been placed.

Blazing 7s is a \$5 progressive jackpot bet, that wins if you receive at least one 7 or up to 100% of the jackpot for 3 suited 7 of diamonds.

The first two (2) cards the player receives and the dealer's up card will be considered for all TriLux and Blazing 7s bets.
